

Exploring Maps

with Kate & Mack

Hi, kids!

We live in a BIG world, and there's so much to learn and explore. You can see God's fingerprints in creation — in the flowing rivers and crashing oceans, in the green valleys and snow-topped mountains, in the desert and in the rainforest! But God didn't just show his creativity in different kinds of landscape — he showed it in people too! Whether we're white, brown, tan or black, from Austria, Japan or Zimbabwe, God made us all and he loves us very much.

One way to learn more about this beautiful and diverse world God created is through understanding different parts of it! We might not be able to visit all these different places and meet people from all these countries in person, but we can still learn more about them — through maps!

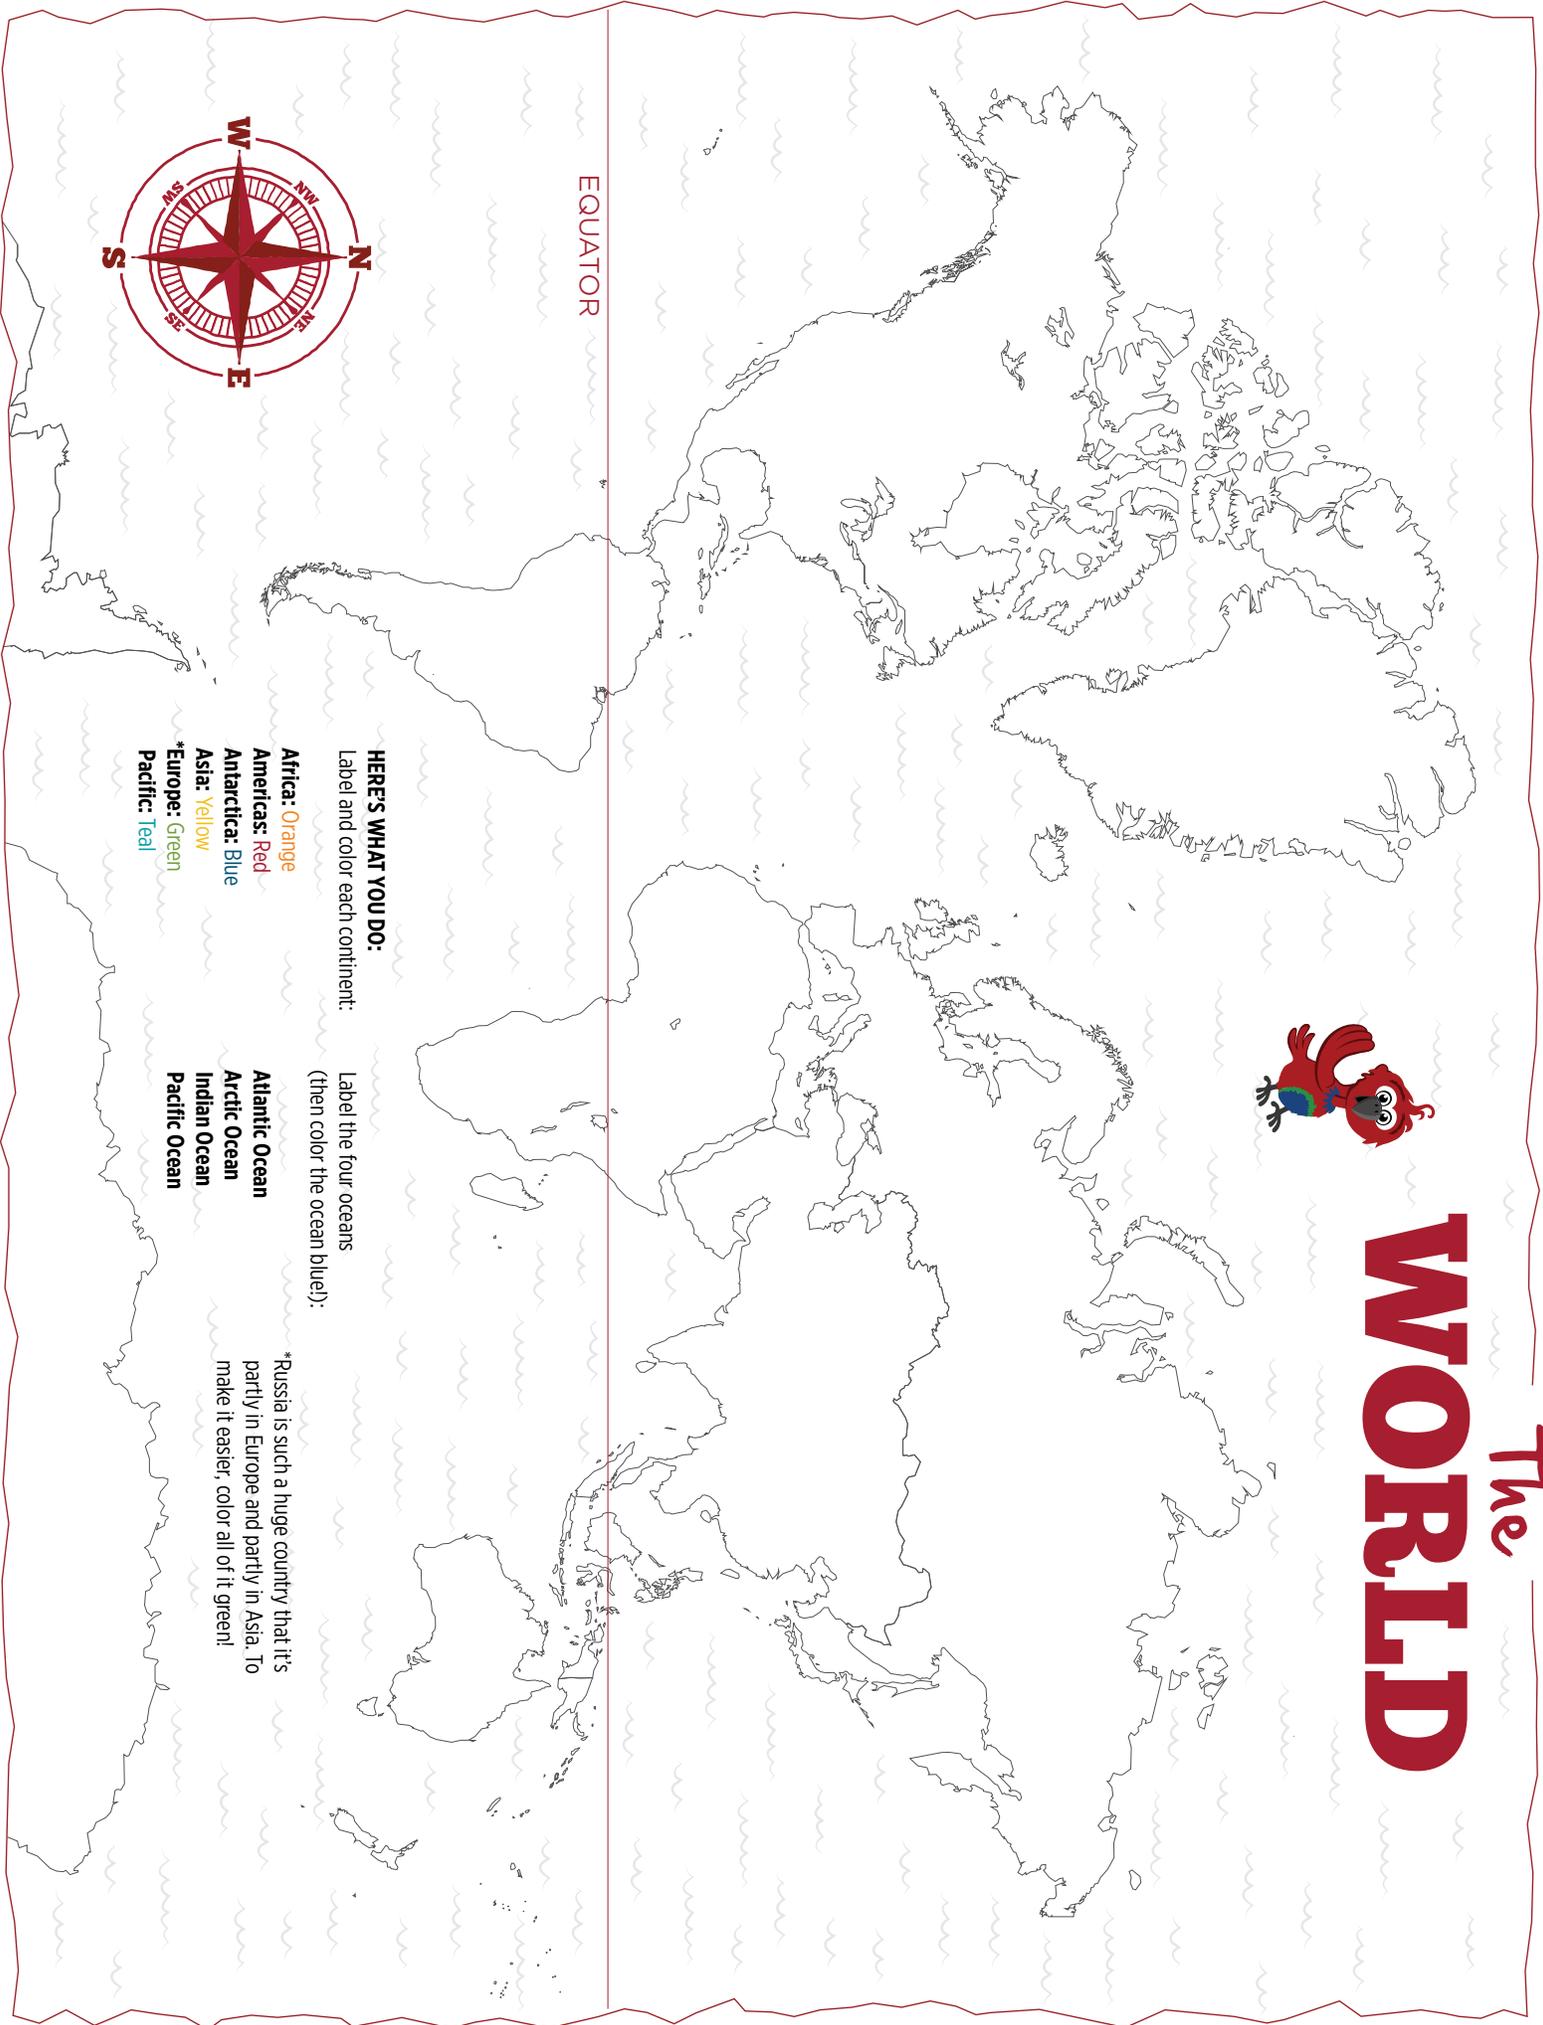

So get on your world traveler hats, because we're going to explore the world today — right from our own homes!

For this is how God loved the world: He gave his one and only Son, so that everyone who believes in him will not perish but have eternal life.

— John 3:16 (NLT)

The WORLD

EQUATOR

HERE'S WHAT YOU DO:

Label and color each continent:

- Africa: Orange
- Americas: Red
- Antarctica: Blue
- Asia: Yellow
- *Europe: Green
- Pacific: Teal

Label the four oceans
(then color the ocean blue!):

- Atlantic Ocean
- Arctic Ocean
- Indian Ocean
- Pacific Ocean

*Russia is such a huge country that it's partly in Europe and partly in Asia. To make it easier, color all of it green!
